

I want the FCC to know how important a positive impact K-LOVE radio, on FM stations 94.7 & 94.9, is having in the Memphis and Mid-South areas. What a ray of hope and love it provides to uplift and bring people in our area together. Not having K-LOVE available in todays world would be like having schools without teachers. K-LOVE, like teachers, provides us with direction and helps us understand ourselves and the world where we live. This helps bring people together and builds better communities.
